Data Element Committee

Action Item#-

Action Source : R&R Committee Date Due: 4

April 2002

- Reviewed the CDMD-OA SDIF Work File Data Field Requirements to ensure consistency with DED Rev D.
- Provided a copy of the CDMD-OA SDIF Work File Data Field Requirements to Donna Johnson to incorporate in the SCLSIS Tech Spec Part A

New Action Items

- Kisan Pandit, NAVSEA 04M, determine conditions OMMS-NG uses to assign action code of “U” and whether any U action codes have been sent through the data flow since CDMD-OA implemented.
- NAVICP-M to report whether or not any activities exists in the WSF using the old Alteration Status Code values. If not this table will be removed from the tech spec.
- Dennis Six verify that the special processing requirements for DO/VC are accurate.

New Action Items

- NAVSEA Define and provide guidance on the use of the new allowed values for Discipline Code.
- Validation Committee to determine if the new Discipline Codes affect their process
- Validation Committee to confirm the accuracy of the VSAC Tables currently in DED Rev D
- X-RIC Committee review DED Rev D section 4 and provide recommended changes to DEC

New Action Items

- DEC update DED Rev D to incorporate the software and firmware requirements
- R&R Committee to update the CDMD-OA SDIF Work File Data Field Requirements prior to submitting final copy to Donna Johnson for incorporation into the SCLSIS Tech Spec Part A
- DEC to replace all “N/R” to “O” in processing requirement sections of DED Rev D
